

## Data Sheet

### Rojo 200LC Mixer

Due to their robust design, adequate motor power and the replaceable wear parts, this Batch Mixer has a very long operational lifetime. The design of the paddles, combined with an appropriate speed of rotation, produce the best possible mixing results with dense Refractory, Civil Mortar and Concrete. To improve the effectiveness further, the position of the paddles is adjustable vertically and transversely.

### Technical Data

Power Supply	- 400 V , 3-phase, 50Hz
Output	- 47 rpm
Capacity Per Batch	- 200 kg
Drum Volume	- 400 litres
Weight	- 500kg
Electric Motor	- 5.5 kW

Appliance Inlet: 5pin 16amp Plug

Dimensions : 150x150x144 (centimeters, L x W x H)

**Optinal Extras :** **5Y cable 5x6mm x 20m 415V 32amp**  
**415V 32A 5pin plug - 16A 5pin socket adapter**  
**Fork Lift Tube;**
