

## Data Sheet

### MRV-2200 Shear Force Mixer

Proven in the field, Putzmeister's MRV-2200 Shear Force mixer gives you faster mixing times. High shear, high energy, and extremely efficient, it is ideal for wet-process refractory work. The machine's mixer discharge easily fits over the hopper of a trailer or forklift-mounted pump.

#### Technical Data

Power: 40HP, 460V, 60Hz

#### Mounting:

Four adjustable telescoping legs. Legs adjust in 30.5cm increments.  
1.0m<sup>2</sup> operator platform with safety rails.  
Foldable ladder to access operator platform.  
Three lifting eyes and forklift tubes.

#### Mixer:

Pan Type- 220lb (997.9kg mixing capacity based on dense castable refractory).  
Pan size 1.8m x 71.1cm inside height  
Hydraulically operated water tight 33 x 40.6cm bottom discharge.  
Replaceable abrasion resistant hard faced paddle shoes.

#### Approximate Overall Dimensions and Weight

Overall Height 2.2m legs fully retracted.  
3.1m legs fully extended.

Loading Height 1.8m legs fully retracted  
2.7m legs fully extended

Length 3.2m  
Width 2.3m

Weight 2857.6 kg

#### Paintwork

Putzmeister Yellow/Grey
