## X10 Pump

### Blastcrete X10 Pump

The X-10 is our ultra high pressure swing tube piston pump designed for refractory and shotcrete applications up to 12 cubic yards per hour. This is the most user-friendly pump on the market to operate and maintain. The unit includes our simple swing out hopper for fast access to the swing tube section for cleaning and maintenance, rugged receiving hopper agitator, forklift tubing mounted to the lower hopper for easy flat pack removal, and includes our reliable solid state electronics. The piston face pressure for this machine is 2200 PSI that allows you to pump material further than any competitive equipment.

**2200 PSI Piston Face Pressure for rugged Refractory Pump Cast and Shotcrete applications**

**Dimensions:**

**397 x 193 x 203 cm**

**Weight:**

**2041kg**

**Lawn Road Industrial Estate, Carlton in Lindrick,  
Worksop, Notts, S81 9LB. England.**
